Service Interruptions

Emergency Calling Service dialing does not function without power and an active Internet connection. A power failure or disruption may require you to reset or reconfigure affected equipment before using the Service or Emergency Calling Service dialing. In addition, if there is a Service outage for ANY reason – including suspension of your account as a result of billing issues – such outage will prevent ALL Service, including Emergency Calling Service dialing. In addition, it may not possible to transmit identification of your phone number or the address that you have listed to the PSAP and local emergency personnel for your area when you use Emergency Calling Service dialing. You may need to state the nature of your emergency promptly and clearly, including your location, as PSAP personnel will NOT have all of this information. You acknowledge and understand that PSAP and emergency personnel will not be able to find your location if the call is unable to be completed, is dropped or disconnected, if you are unable to speak to tell them your location and/or if the Service is not operational for any reason, including without limitation those listed elsewhere in this agreement.

Phone Number and Location Changes

If you change your primary phone number, you will not be able to change your Emergency Calling Service address for seventy-two (72) hours. During that time, any Emergency Calling Service calls that you may make will be routed using the address that was in Provider's records before you changed your phone number. Emergency Calling Service dialing does not function properly or may not function at all if you take Equipment with you away from the address or physical location that you have designated.
